## Dear Colleagues

Next year RQ-Assessment will be held in Barcelona, Spain, September 12<sup>th</sup> to 16<sup>th</sup> of September.

During the last congress in Tours, the total number of candidates were 29. The candidates originated from 9 different European countries: German, Portugal, France, Belgium, Greece, Austria, Hungary, Spain and Italy.

Some changes have been made concerning the RQ Assessment. The main change is the number of languages used during the Oral Exam. I include the "EBOMFS Announcement" into this email. We have decided that the number of languages are reduced to four: English, French, Spanish and German.

Otherwise the Assessment and the practical are about the same as in Tours

## Meetings

There are three separate meetings for the examiners:

- 1) Subject: The structure of Assessment, practical matters
- 2) Subject: MCQ information, oral examination
- 3) Subject: Evaluation of the Assessment, results

## MCQ

The MCQ – exam will be carried between 9:00 – 09:45 am (Monday 12<sup>th</sup>). The total number of MCQ is 30. Only one choice pro question is correct. If a candidate does not take part in the MCQ Exam, he / she cannot go on the oral part of the Assessment.

**Oral part**

The oral part will be carried out on Monday and Tuesday (12<sup>th</sup> or 13<sup>th</sup> of September. There will be three examiners in the jury for each candidate. The president of the jury and the candidate are from the same country. The other two examiners are from different country as the candidate.

**Awards**

The award ceremony of the Assessment takes place on Tuesday during the Congress Opening Ceremony

**General Information**

The compensation about the costs and examination procedures to jury members will be performed according to the earlier practise.

**Saturday, 27 February 2021**

**Sincerely Yours**

**Risto Kontio MD DDS**
